

## **Brownfields 2018 Assessment Grant Fact Sheet**

### **Fremont County, CO**

#### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment, and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

#### **Assessment Grant**

*\$300,000 for hazardous substances*

*\$300,000 for petroleum*

EPA has selected Fremont County for a brownfields assessment coalition grant. Community-wide hazardous substances grant funds will be used to inventory and prioritize sites, conduct up to seven Phase I and four Phase II environmental site assessments, and develop three reuse plans. Community-wide petroleum grant funds will be used to conduct the same tasks at sites with potential petroleum contamination. Grant funds of both types also will be used to support community outreach activities. Coalition partners are the Cities of Florence and Canon City. Assessment activities will focus on sites throughout Fremont County, including the Arkansas River corridor, the downtown Main Street area in Canon City, and the historic downtown area of Florence.
